Demonstrates a cooperative and supportive attitude.	4	4	4	3
Contributes significantly to the success of the project.	4	4	4	4
TOTALS	23	23	23	23

Feedback on team dynamics:

1. How effectively did your group work?

    -   Based on my own perspective, my team was absolutely and successfully finishes the work on time with lots of fun that each member is enjoying and as a whole, we are in one team helping and leading this project to success for what we can do.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

    -   The behaviors that i had observed is the behavior of laziness and the behavior of doing something instead of doing the task but at the same time they do their task and works well but not formally and that's how we do it as a team to not do it formally but to collaborate and work with a fun attitude.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

    -   The learning that i have learned from this group is the behavior and attitude of doing fun things but at the same time doing the task well and successful with fun and enjoyment of each team.
